Market Highlights

US visitation recovery is not forecasted to reach 2019 levels until 2026 and Washington resident visitation in 2023 is forecasted to be -25% below 2019 levels. $^{\rm e}$

Only one-quarter of travellers from Washington have visited British Columbia in the past five years. However, future intent to travel within the next two years has increased from 2022.^ℓ

Washington's air capacity for the first half of 2024 shows an uplift of 9% over the same period in 2023, underscoring a solid increment in travel demand year-over-year.[♦]

US travellers prioritize safety (38%) and outdoor experiences (35%) when considering Canada, with a strong inclination for relaxation (34%) and cultural engagement (32%). Cost (26%) and poor weather (21%) stand out as the main barriers, with additional concerns about gas prices and travel distances within Canada also impacting their travel planning. P

A significant 76% of US travellers consider Canada an environmentally friendly destination, and 73% see it as socially responsible. However, only 16% cite the availability of eco-friendly and socially responsible travel options as influencing their choice to travel to Canada.

72% of Americans expect to take at least one leisure trip in the next three months, with two-thirds saying they will include a trip to visit friends or relatives.√

Market Highlights

US visitation recovery is not forecasted to reach 2019 levels until 2026 and California State visitation in 2023 is forecasted to be -33% below 2019 levels.

Only one-fifth of California travellers have visited British Columbia in the past five years, with the future intent to travel within the next two years decreasing significantly from 2022.^ℓ

California's air capacity for January to June 2024 is projected to surge by 22% compared to the same period in 2023, indicating a powerful rebound and increased travel connectivity.

US travellers prioritize safety (38%) and outdoor experiences (35%) when considering Canada, with a strong inclination for relaxation (34%) and cultural engagement (32%). Cost (26%) and poor weather (21%) stand out as the main barriers, with additional concerns about gas prices and travel distances within Canada also impacting their travel planning."

A significant 76% of US travellers consider Canada an environmentallyfriendly destination, and 73% see it as socially responsible. Still, only 16% cite the availability of eco-friendly and socially responsible travel options as influencing their choice to travel to Canada. 4

72% of Americans expect to take at least one leisure trip in the next three months, with two-thirds saying they will include a trip to visit friends or relatives.√
